

# Foliar Sprays, Growing Mediums & Seasonal

## Mega Wet

Mega Wet is a multi-purpose wetting agent and emulsifier for oil-based products – similar to dish soap. Use Mega Wet in foliar feed fertilizer programs to improve spray coverage on plants, lengthen contact and control of foliar sprays, aid in suspension of wettable powder, speed penetration and produce finer sprays. Sizes: 250ml, 500ml, 1ltr, 4ltr.

## RAGE

RAGE is a 100% organic growth enhanced fertilizer that uses chitosan. It contains a patented ingredient called Marinasan which is made from the shells of crustaceans found in the pure cold water of the Atlantic Ocean. RAGE triggers the plant's built-in defense and growth systems and results in the plant producing a better crop and a larger yield. Sizes: 250ml, 500ml, 1ltr, 4ltr, 20ltr. NPK: 1-0-0.

## Hot Pepper Max

Hot Pepper Max is an organic based concentrate of hot pepper extract and other natural oils in a liquid emulsion. Use Hot Pepper Max as a foliar spray to prevent plants from dehydration due to transpiration. Sizes: 500ml, 1ltr, 4ltr, 20ltr.

## Nature's Neem Oil

Neem Oil is a 100% organic product derived from the Neem Tree (*Azadirachta indica*) native to South East Asia and India. Use Nature's Neem Oil in foliar feed spray applications or as a foliar leaf shine spray. Sizes: 125ml, 250ml, 1ltr, 4ltr, 20ltr.

## Insta-Green

Insta-Green is a dark greening solution, scientifically formulated to bring plants back to a lush dark colour and vigour. Insta-Green will eliminate yellow leaves in found seedlings and cuttings. Use Insta-Green when plants are stressed due to under feeding or transplanting until a healthy vigour has returned. Sizes: 1ltr, 4ltr, 10ltr. NPK: 3-0-0.

## Hydrocorn (Gro Rocks)

Grotek Hydrocorn is a round, baked clay medium that is highly porous and stable. The high cation exchange of this medium provides a strong home-base for roots to form. The porosity provides an increased level of available oxygen for the root hairs.

Sizes:  
 2-4mm - 12.5 and 50 litre bags.  
 8-16mm - 12.5 and 50 litre bags.  
 16-24mm - 50 litre bags only.

## Ceramic Shell

Inner Pore Structure Absorbs Moisture

## TreeFresh

TreeFresh extends the life of Christmas Trees. Organic based, it prevents early needle drop and helps trees keep their vigour for the entire holiday season. TreeFresh works by preventing the dry out of the sap stream allowing the tree to stay green longer by reducing the stress on the fresh cut tree. Continue using till after the holiday season by adding it weekly to the reservoir. Sizes: 500ml.

## CocoEarth

CocoEarth is a 100% organic medium suitable for rooting, vegetative growth and blossom development. CocoEarth has a high water and nutrient holding capacity and is free draining. CocoEarth is clean, easy to use, handles and stores efficiently. CocoEarth is made from the "coir pith" of coconut husk without the addition of harmful chemicals. CocoEarth makes an excellent top dressing for flower beds and lawns as it helps to reduce water and heat stress, soil compaction and improving soil structure. CocoEarth is an organic peat moss replacement. Sizes: Pellets, Disks, Brick, Block, Bale and Slab.

## Our commitment...

All of Grotek's 100% organic and organic-based products are branded **earth safe**. It is our seal of approval that they are safe for the environment, safe for your garden and safe for you.
